## AMENDMENTS TO SAILING DIRECTIONS UP TO MARCH 2024

FOR

PILOT D' (1<sup>st</sup> EDITION 2010)

## **2010**

### **Notice Nr. 116/10 PILOT VOLUME D'**

**237**

**R 56 Delete:** “, the end... red light.”

(Information: Light House Authorities)

### **Notice Nr. 117/10 PILOT VOLUME D' – Aigaío Sea – Island of Chíos – East Shores – Pilot Update**

**93**

**R 47 After:** “Karidás”, **Add:** “ At a small distance west of cape Karidás (38°28',7 N – 026°08',4 E) there is a small harbour open to the north with a short jetty at its head. The depths at the center of the harbour are close to 2,4m. The small harbour is used by the fish farm installation “NIRÉVS”.

(Information: H.N.H.S)

### **Notice Nr. 118/10 PILOT VOLUME D' – Aigaío Sea – Island of Chíos – East Shores – Pilot Update**

**94**

**R 46 After:** “100m off it.” **Add:** “At the shores of the above mentioned town (38°24',3 N – 026°08',1 E) there is a small curved jetty shaped ( γ ) with a total length of 35 meters. The depths at the outer east part of the jetty are close to 2m. At a distance of 30 meters south–southwest from the jetty there is a ramp. To the south of the jetty, the fishing harbour of Treís Mýloi is located (38°24',2 N – 026°08',2 E). The harbour entrance is 100m wide and open to the northeast. The depths at the entrance axon are close to 3,5 meters and they become less than one meter close to the shore. A curved windward jetty, 140m long of north direction protects the fishing harbour. The inner side of the jetty is quayed and the outside is protected by a slope of masonry.

(Information: H.N.H.S)

**Notice Nr. 121/10**

**PILOT VOLUME D' – Aigaío Sea – Island of Chíos – Chíos Harbour – Pilot Update**

**95**

**L 34** Instead of: “**The** instalments of the new fish–pier of Chios...of the facilities.” **Replace with:** “The small harbour Ixthióskala Xíou (38° 22', 6 N – 026°08', 4 E) is located 0,5 miles south of the Marína of Chíos. The harbour is open to the south – southeast and it consists of an outer and an inner curved mole. Lights operate on the heads of the two moles. The depths at the entrance axon are close to 5 meters. The harbours inner side is quayed. The depths at the south, west and north part of the quay are less than 3 meters. At the east side of the quay the depths vary between 2,9 and 4,6 meters. At a distance of 60 meters north from the root of the outer mole there is a 70m long jetty of eastern direction.

(Information: H.N.H.S)

**Notice Nr. 143/10**

**PILOT VOLUME D' – Aigaío Sea – Island of Chíos – East Shores – Pilot Update**

**95**

**L 33 After:** “40 m wide.” **Add:** “The depths at the entrance and near the mole vary between 2,2 and 2,9 meters.”

(Information: H.N.H.S)

**Notice Nr. 146/10**

**PILOT VOLUME D' – Chapter 1**

**8**

**Replace:** In **L 31** “Medium Range” **with** “Average Range”

(Information: H.N.H.S.)

**Notice Nr.147/10**  
**PILOT VOLUME D' – Chapter 1**

**8**

**Replace:** The table from L 34 to L 43, “Thessaloníki 0,20...” to “... 0,11 0,30 0,87”, with the table:

Ports	Average Range	Highest Range	Difference of the sea levels between flooding and tide.
Thessaloníki	0.22	0.94	1.52
Alexandroúpoli	0.18	0.65	1.54
Chalkída	0.50	1.20	1.73
Chíos	0.10	0.37	1.08
Peiraiás	0.05	0.38	1.08
Sýros	0.05	0.32	1.07
Ródos	0.14	0.45	1.01
Soúda	0.06	0.25,	0.80
Lefkáda	0.11	0.30	0.87

(Information: H.N.H.S.)

**Notice Nr.148/10**  
**PILOT VOLUME D'**

**37**

**L 60 Replace:** “The south...9 m” **with** “The length of the south side is about 230 metres while the length of the east side is about 510 metres. Approximately in the middle of the east side there is a semi-sunk barge, the starboard side of which is visible.

(Information: Port Authority of Alexandroupoli)

**Notice Nr. 149/10**  
**PILOT VOLUME D'**

**47**

**R 30 After** “and rocks”, **add:**From a point of the head of the aforementioned gulf a submerged seven pipeline, with a north-west direction and total length of about 550 m, starts.

**Notice Nr.: 150/10**  
**PILOT VOLUME D'**

**3**

**R 39 Replace** “from a political issue” **with** “of any civil plaint.”

**Notice Nr. 151/10**  
**PILOT VOLUME D'**

**4**

**R 50 – 51 Replace** “carry urgent...transportations” **with** “carry out urgent civil transportations”.

**Notice Nr. 152/10**  
**PILOT VOLUME D'**

**7**

**L 3 Replace** “The Firing practice area...use the area” **with** “The Firing practice area it is possible to be used by other units except for the units that control it.”

**Notice Nr. 153/10**  
**PILOT VOLUME D'**

**8**

**L 10 – 18 Replace** “The tide phenomenon...of the islands.” **with** “The tide phenomenon in the entire closed sea of the Mediterranean compared to other areas of the world is virtual insignificant. Serious effects on the event and spread of the tide phenomenon in the Hellenic Seas and particularly in the areas of the Aigaío, has the morphology of coasts and the dissemination of the islands.”

**Notice Nr. 154/10**  
**PILOT VOLUME D'**

**62**

**L 40 After “shores” add:**A submarine sewer pipeline with northeast direction starts from a point of the shore about 90 meters north of the root of the breakwater. The end of the pipeline is marked by a red light buoy.

(Information: Technodomiki Aegaiou S.A.)

## **2011**

**Notice Nr. 30/11  
PILOT VOLUME D'**

**92**

**L 61 Substitute GC 445 with 334/1.**

**Notice Nr. 30/11  
PILOT VOLUME D'**

**96**

**L 43 Substitute GC 445 with 334/1.**

**Notice Nr.81/11  
PILOT VOLUME D - Aigaío Sea – Island of Limnos – Myrina Harbour –  
Sewer pipeline**

**After**“starts” **add:** the seaward end of which is marked by a yellow light buoy.

(Information: Municipality of Myrina)

**Notice Nr. 98/11  
PILOT VOLUME D' – Aigaio Sea – Samothraki Island – Therma Fishing  
harbour – Depths**

**42**

**Replace**«and the depths ... 4m» **with** «there are depths of less than 1 meter  
up to 2 meters»

(Information: Harbour Master Office of Samothraki)

**Notice Nr. 126/11  
PILOT VOLUME D' – Thakiko Sea – Alexandroupolis Port – Temporary  
Anchorage – Pilot Update**

**37**

**R 65 After:** “Samothraki”, **Add:** “: «Temporary anchorage situated south-  
southeast from Alexandroupoli port entrance bounded:

a. 40° 49'6''N - 025° 50'E.

- b. 40° 49' 6'' N - 025° 53',9E.
- c. 40° 47' 6'' N - 025° 53',9E.
- d. 40° 47' 6'' N - 025° 50'E.
- e. 40° 49' 6'' N - 025° 50'E.

(Information: Alexandroupolis Harbour Authorities)

**Notice Nr. 127/11**

**PILOT VOLUME D' – Thrakiko Sea – North Aegean Sea – Limnos Island – Kontia Bay – Pilot Update**

**60**

**R 47 After:** “meter”, **Add:** The small port is protected by a curve breakwater with total length about 40 meters. A short mole situated north east from the head of the breakwater.

(Information: H.N.H.S.)

**Notice Nr. 128/11**

**PILOT VOLUME D' – Thrakiko Sea – North Aegean Sea – Chios Island – West Shores – Small port of Limia – Pilot Update**

**103**

**Left 43 After:** “38° 28,2' N - 025° 55,2' E”, **Add:** The light is surrounded by a shoal with one meter depth above.

(Information: Chios Port Authorities)

**Notice Nr: 129/11**

**PILOT VOLUME D' – Rodos Island – East Coast – Cove between Capes Vagia and Tsampika – Floating Platforms**

**233**

**Left 26 After:** «summit.» **Add:** «A cove is formed between cape Vagia and cape Tsampika. Inside the cove two seasonal platforms moored. The northern one is marked by a white fix light and the other one by four fix lights.

(Information: Rodos Port Authorities)

**Notice Nr. 149/11**

**PILOT VOLUME D' – Dodekanisa – Agathonisi Island – Kouneli Rocky Islet – New Depth**

**154**

**Right 36 after (50m or more) Add :**<A bottom elevation with minimum depth of about 8,6 meters, lies at a distance 0,2 miles west of Kouneli Rocky Islet.

(Information: H.N.H.S.)

**Notice Nr.: 150/11**

**PILOT VOLUME D' – Samos Island – Karlovasi Port – Lights**

**127**

**Right 54 – 58 Delete.**

**128**

**L1 – 11** Instead <A new 9m.> read At a distance about 500 meter east from the root of the outer (north) mole a quay has been constructed oriented to north. A light operate at the end of the quay(37° 47,9' N – 026° 41,7' E). The new development area is not surveyed. The entrance to the port is set to northeast and formed between the head of the north outer mole and the breakwater of the marina motioned bellow.

**L22** After 'north" add A light operate at its head (37°47,9' N – 026°41,3' E).

**Notice Nr. 169/11**

**PILOT VOLUME D' – Oinousses Channel – Wreck**

**110**

**R 4 – 5** Instead <.in a depths....south> read <in depths of 5,3 m is located at a distance about 40 m south – southwest

(Information: H.N.H.S.)

**Notice Nr.170/11**

**PILOT VOLUME D' – Samos Island – Pythagoreio Port – Port Developments**

**121**

**R 56 After** Kalymnos **add**<Works in progress in the inner part of the above mentioned mole from the head up to widened moles base.>

(Information: Pythagoreio Port Authorities)

**Notice Nr.187/11**

**PILOT VOLUME D' – Rodos Island – East Coast – Pilot Updated**

**232**

**L 32 – 45 Instead**<.A Marina....south>**read** Small port Kanamati (36° 25,3' N – 028° 14,0' E) has been constructed to the east of the southern radio tower . It is protected by a curved mole with a northeast – north direction 440m long from witch the 240 are quayed and the rest are made by slope of masonry. A light operate at its head (36° 25,3' N – 028° 14,1' E). At a distance of 200 west from the head of the above mole a second curved mole made by slope of masonry starts 230 long and initially extents to southeast for 110 meters and then turns to the south for about 120 m. A light exhibits at its elbow, (36° 25,2' N – 028° 14,0' E) while a another light exhibits at is head, (36° 25,1' N – 028° 14,0' E). The shores of the port except from the north part are quayed with depths from 4 to 5,2 m. A slipway lies at the south port shores.

**232**

**L 47 After** long **add**<The depths at axis of the entrance varies from 5,1 to 7,5 m

(Information: H.N.H.S.)

**Notice Nr. 205/11**

**PILOT VOLUME D Aegean Sea – Lesvos Island – Gulf of Geras – Skala Loutron – Harbour Developments**

**74**

**L 31 After** tanks **add** Harbours works in progress 0,2 miles from the root of the above motioned pier. A new quay is constructed. The new quay oriented southeast is 60 meter long and 10 meter wide. Works are marked by a temporary red light.

**Notice Nr. 225/11**

**PILOT VOLUME D' Thrakiko Sea – Kavala Gulf – Kavala Harbour – Harbour Developments – Restricted for anchorage and fishing areas**

**19**

**L 1 After** (40° 55,9' N – 24° 24,4' E)**add** Harbours developments–extension of the mole–in progress (2011) from the head of the mole for about 200 meters west.

**L 55 – 58 Instead A good.....**26 to 28m **read:** Restricted anchorage and fishing area located one mile east and south from the head of the mole of fishing harbour Kavala.

## **2012**

**Notice Nr. 47/12**

**PILOT VOLUME D' Thrakiko Sea – Kavala Gulf – Tsari Bay – Harbour Developments**

**20**

**L 42 After cranes add** Harbours developments – construction of a new breakwater– in progress (2012) from the head of the pier.

(Information: Kavala Harbour Authorities)

**Notice Nr. 68/12**

**PILOT VOLUME D' – Thrakiko Sea – Kavala Gulf – Tsari Bay – Harbour Developments**

**20**

**R 65 After (40° 56,´ 6 N – 024° 28´ 5´´E) insert:** The light is temporary out of order (2012) as harbour developments are in progress the end of which are marked by a red lightbuoy.

(Information: Light House Authorities)

**Notice Nr. 69/12**

**PILOT VOLUME D' – Psara Island – Psara Port – Light**

**112**

**L 31 After “80”add** A light operate at the head of the mole (38° 32,´ 4 N – 025° 33´ 09´´E) (Metal frame work with gallery, and red band).

(Information: Light House Authorities)

**Notice Nr. 107/12**

**PILOT VOLUME D' – Pilot UpDate**

**3**

**L2 After “channels” Add** Vessels before entering in the above mentioned areas must communicate with local port authorities in order to be informed for the special regulations issued by the state.

(Information: H.N.H.S.)

**Notice Nr. 110/12**  
**PILOT VOLUME D' – Samos Island– Southeast Coast – Pythagoreio Marina**

**121**

**L 57 After 'opening'** add and depths about 5 meters.

**L 61 After 'west' add** The depths near the moles vary between 2,9 and 4,7 meters.

(Information: H.N.H.S.)

**Notice Nr. 111/12**  
**PILOT VOLUME D' – Samos Island – Southeast Coast**

**123**

**L 36 Instead of "0,3" read "0,2"**

**L 37 After Karavotra add** A shoal tongue oriented NNW–SSW with a least charted depth of 14,5 m lies about 370 meters east from rock Niovi.

(Information: H.N.H.S.)

**Notice Nr. 112/12**  
**PILOT VOLUME D' – Samos Island – West and North Coast – Plaka Rocky Islet**

**126**

**R 48 After "shore"** Add West from Rocky Islet Plaka lies a Awash Rock

(Information: H.N.H.S.)

**Notice Nr. 113/12**  
**PILOT VOLUME D' – Samos Island – Port of Karlovasi – Pilot Update**

**127**

**R 41 Instead "680" read "720"**

**R 51 Instead "5 and 5,5 meters read 4,5 and 5 meters**

**R 54 – 58 Replace by:** The south mole from slope of concrete begins from the point of the shore lying 1100 meters east from Cape Pagkoti and extents 190 meters to the north. A light operate at its head. (37° 47, '9 N – 026° 41, '3

E) (Metal frame work with gallery, and red band). The entrance of the port that is set to NE is formed between the heads of the two moles and is 260 meters wide. At a distance 500 meters east from the root of the north mole a jetty witch extents for 200 to the north lies. At its head a light exhibited. (37° 47, '9 N – 026° 41, '1 E) (Metal frame work with gallery, and red band).

**128**

**L 1 – 10 Delete from “A new ..... up 9m**

**L 16 – 20 Replace from “in a distance” up to “marina” by:** in the middle of the inner side of the south mole. The marine is protected by two moles. On the head of the moles lights exhibited.

**Notice Nr.: 114/12**

**PILOT VOLUME D’ – Samos Island – Vathy Bay – Kokari Port – Pilot UpDate**

**129**

**L 51** Instead (2m) read “less than meter.

(Information: H.N.H.S.)

**Notice Nr. 115/12**

**PILOT VOLUME D’ – Samos Island – Samos Port – Pilot UpDate**

**130**

**L 60** Instead of “6m” read 7,5 up to 8 m.

**L 61** After “port” add South of the quay and at a distance about 40 and 140 meters respect ivy there are two rumps.

**Notice Nr.: 128/12**

**PILOT VOLUME D – Kos Island – Kos Port – Pilot Update**

**187**

**R 56** After “mud” add A mooring buoy laid at head of the port.”

**188**

**L 5 – 7** Delete from “A white ..... up 9 m”

**Notice Nr. 148/12**

**PILOT VOLUME D' – Thakiko Sea – Kavala Gulf – Kavala Harbour – Pilot Update**

Relevant Notice Nr.: **225/11**

**L1 After** “west” Add which are marked by four (4) green light buoys. The light at the head of the south mole is out of order.

**Notice Nr. 149/12**

**PILOT VOLUME D' – Samos Island – Port of Samos – Pilot Update.**

**130**

**L31 after “abruptly” add.** Vessels entering and leaving the harbour should maintain a maximum speed of five Knots for a distance 0,5 miles NW from the head of passenger mole (37° 45, '4 N – 026° 58, '2 E).

**L60** Replace “approximately 6 meters” by from 7,5 up to 8,2 meters.

**L64 – 65** Delete

**R1** Delete

**Notice Nr. 210/12**

**PILOT VOLUME D' – Thrakiko Sea – Lagos Channel – Lights**

**33**

**L 21** After (41° 00, '5 N – 025° 07, '8 E) Add the lights at the two concrete columns are temporary extinguished.

(Information: Light House Authorities)

**Notice Nr. 211/12**

**PILOT VOLUME D' – Agios Efstratios Island – Light**

**61**

**R 59** After (39° 32, '4 N – 024° 59, '2 E) Add the light is temporary extinguished

(Information: Agios Efstratios Port Authorities)

**Notice Nr. 231/12**

**PILOT VOLUME D' – Samos Island – Port of Marathokampos – Pilot Update**

**125**

**L 64** Replace 250 with 230 and 140 with 190

**R 20** After “side” Add with depths from 3,8 up to 4,5 meters.

**R 29** Replace “approximately 2 m” with less than 2 meters and **Add** A slipway lies in the inner side of the breakwater.

**R 33** Replace 2 m with 1,5 m.

**R 38** Replace 150 with 110.

(Information: H.N.H.S.)

**Notice Nr. 232/12**

**PILOT VOLUME D' – Samos Island – Cape Kotzikas – Pilot Update**

**129**

**R 59 After** “long” **Add** A rock above water lies 0,25 miles NE from cape Kotzika light.

(Information: H.N.H.S)

**Notice Nr. 233/12**

**PILOT VOLUME D' – Kasos Island – Fry Port – Pilot Update**

**251**

**L 51 Replace** from “There are..... Buoy” **with**.The total length of the breakwater is 615 meters. A light operate at its head. (39° 25,´4 N – 026° 55,´7 E). **Caution is required** as the area close to the breakwater is non surveyed area.

(Information: H.N.H.S)

**Notice Nr. 249/12**  
**PILOT VOLUME D' – Island Agathonisi and Rocky Islets Located Nearby**  
**– Pilot Update**

**153**

**L 64** Replace 11 with 15,3

**154**

**L 24 – 26** Delete from “There is..... Above it”

**L 33** After “between” Add “with depths of 1,6 meters over”

**L 51** Replace 1,8 with 5,2

**L 56 – 58** Replace “Another ..... Glaros” with “At a distance about 0,6 miles east from rocky islet Glaros there is a depth of 30 meters.

**L 59** Replace 1,5 with 0,7

**L 65** Replace 15,8 with 15,3

**L 20** Replace 0,4 with 0,3

(Information: H.N.H.S)

**Notice Nr. 250/12**  
**PILOT VOLUME D' – Leros Island – East Coast – Piganousa Rocky Islet**  
**– Pilot Update**

**167**

**R 50** Replace “12,6 m or more” with 12,9 m

**R 51** Replace 0,3 with 0,2

**174**

**L 55** After “Zymi” Add “ A wreck with a minimum depth of 52 meters over it lies 0,3 miles west of cape Zymi.

(Information H.N.H.S)

**Notice Nr.251/12**

**PILOT VOLUME D' – Southeast Aegean Sea – Rocky Islet Astakidoloulo – Pilot Update**

**201**

**L 39** After “islet” Add “Cheli”.

(Information H.N.H.S)

## **2013**

**Notice Nr. 31/13**

**PILOT VOLUME D' – Lesvos Island – South Coast – Cape Agrelis – Pilot Update**

**72**

**L 49** After “Approximatley” **delete** “0,5 miles”.

**L 53**After “Mikri Chaviaropetra” **Add** ‘The islets lie 0,7 and 0,5 miles west of cape Argelios respectively’.

(Information H.N.H.S.)

**Notice Nr. 32/13**

**PILOT VOLUME D' – Aegean Sea – Chios Island – Limia Small Port – Lights**

**103**

**L 33** **After** (38° 28,´1 N – 025° 55,´2 E) **Add** “The light is temporary out of order (January 2013)

(Information: Light House Authorities)

**Notice Nr. 45/13**

**PILOT VOLUME D' – Thrakiko Sea – Thasos Island – Potamia Bay – Chrysi Akti Port – Pilot Update**

**26**

**R 40** **Replace** 70m with 110m.

**R 41 Replace** 80m with 50m and **Add** “A temporary green light buoy moored at the end of the east mole.”

(Information: Light House Authorities)

**Notice Nr. 46/13**

**PILOT VOLUME D' – Aegean Sea – Chios Island – Mesta Bay – Pilot Update**

**100**

**R 38 After** “Are” Add lit

**R 39 – 40 Delete** From “Small..... part”

**R 50 – 62** “A 120 meter....150□ “ **Replace by** “The east shores of the bay are quayed with a total length of about 680m and with depths from 6,6 to 9,4 m. At the southern part of the quayed shores there is the main wharf about 35 m wide with a ramp at the north side. The depths close to the wharf are 8,4 m. Ramps also are situated 120 and 420 m south of the light of the northern limit of the quay ’ (38° 17′,7 N – 025° 55′,7 E). A slipway also situated about in the middle of the above–mentioned quayed shores.

**R 63 – 65 Delete** from “A pier ..... and its”.

**101**

**L 1 – 4 Delete** from “nearby..... north side”.

(Information: H.N.H.S.)

**Notice Nr. 47/13**

**PILOT VOLUME D' – Aegean Sea – Leros Island – Alinta Bay – Agia Marina Port – Pilot Update**

**166**

**L 23 After**1 meter Add “A rump situated at the head of the pier.

**L 27replace** “2 m” **with** “less than 1 meter while the depths at the head are 2,7 meters.

(Information: H.N.H.S.)

**Notice Nr. 48/13**

**PILOT VOLUME D' – Aegean Sea – Leros Island – Pantelis Bay – Pilot Update**

**167**

**L 49** After bay Add “The small port is open to W. The entrance is about 60 m wide with depths at the axis vary from 4 to 5 meters.

**L 51 Replace** “west for 90 m” with “for 80 m to SW and then for 100 m to WNW.

**L 53 – 54 Delete** From “There is ..... and”.

**L 56 Replace** 3m with 2m.

**Notice Nr. 81/13**

**PILOT VOLUME D' – Aegean Sea – Symi Island – Symi Port – Pilot Update**

**212**

**R 39 After** ( 027° 52',4 E) **Add** Temporary out of order (2013).

(Information: Light House Authorites)

**Notice Nr. 82/13**

**PILOT VOLUME D' – Aegean Sea – Rodos Island – Small Port Fanai – Pilot Update**

**237**

**R 38 After** (027° 58',7 E) **Add** “Entrance to the small port is prohibited as the depths at the entrance are less than half meter.

(Information: Dodekanisa Port Authorites.)

**Notice Nr.97/13**

**PILOT VOLUME D' – Aegean Sea – Samos Island – Samos Strait – Pilot Update.**

**124**

**L 22 Replace:** «east to west», **with:** «west to east».

**L 25 Replace:** «south», **with:** «north ».

(Information: HNHS)

**Notice Nr. 98/13**

**PILOT VOLUME D' – Aegean Sea – Rodos Sea – Chalki Island – Emporeio Bay – Pilot Update.**
